

Manufacturer of equipment and turnkey units for **industrial water** and **drinking water**, specialist in membrane technologies and water chemistry.

We design and build turn key units, complete water treatment lines, and containerized installation from 1m³/h up to 200m³/h

**DESIGN & MANUFACTURING
INTEGRATED ENGINEERING
SERVICES**

20 years of expertise
+ 300 installations completed
16 employees

**WATER EQUIPMENTS
FOR INDUSTRY**

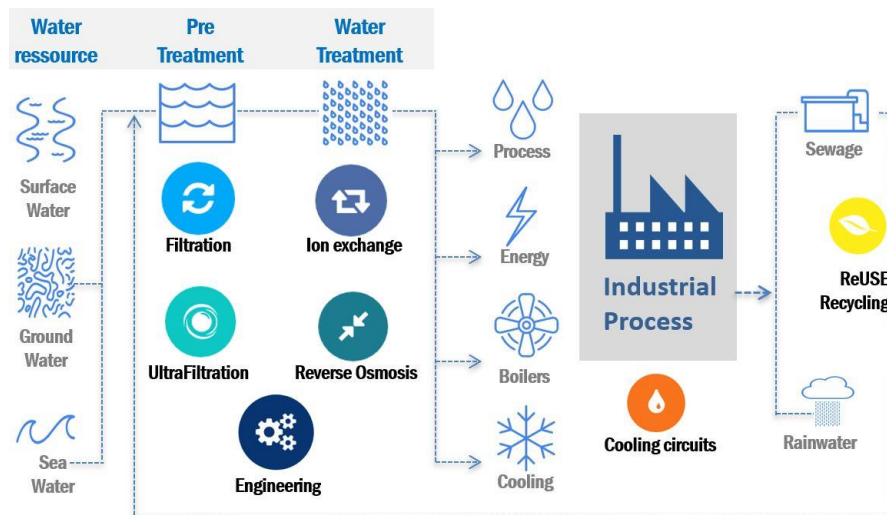

Water demineralization, steam boiler
Ingredient Water and ultrapure water
Cooling circuits
High flow filtration units
ReUSE of treated waste water

**SERVICES & PARTS
FOR COOLING CIRCUITS**

Cleaning, disinfection **cooling towers**
Filtration of ice water circuits
Chemical descaling, passivation
Unclogging of hot water networks
Replacement of **cooling towers** packings

**POTABLE WATER
FOR COMMUNITIES**

Surface water **potabilization**
Sea and brackish water **Desalination**
Suppression of **nitrates**, pesticides
Catalytic media **filtration**
Greywater ReUSE for irrigation

FOCUS MARKETS

STANDARDS & LABELS

TRADEMARKS

20 years of expertise in water chemistry, membrane technologies and ion exchange enable us to support you on the most demanding projects, if necessary requiring the performance of pilot tests beforehand.

TECHNOLOGY

PRE FILTRATION

Rotary filters, microfiltration,
Pocket filters

ULTRAFILTRATION

Pre treatment
Water potabilisation

REVERSE OSMOSIS

Water demineralization
Sea and brackish water desalination
Ingredient and ultrapure water
Steam boilers

NANO FILTRATION

Denitration, Fluorine removal, ReUSE

CATALYTIC FILTRATION

Manganese, iron removal
Arsenic, pesticides

ION EXCHANGE

Water softeners
Ion exchange resins

EDI ELECTRODEIONIZATION

HP steam turbine quality boiler

Compact water treatment units certified to the highest standards.

Integrated engineering to meet the specific needs of industrials, communities, water treatment professionals, for design and build specific equipments.

SERVICES

MAINTENANCE

Preventive maintenance
Membranes and resins exchange
Cleaning, disinfection, CIP

COOLING TOWERS

Cleaning, disinfection
Packing exchange

CIRCUITS

Chilled water circuit filtration
Chemical cleaning and passivation
Unclogging of hot water networks
Legionella disinfection
